**MedPro Rx, Inc. Named Platinum Sponsor For  
Hemophilia Of North Carolina Annual Meeting**  
*Local Specialty Pharmacy Supports Nonprofit Annual Meeting*

RALEIGH, N.C. – Nancy McFarlane, president of MedPro Rx, Inc. ([www.medprorx.com](http://www.medprorx.com)), a provider of specialty pharmacy services to clients with chronic illnesses, has announced that the pharmacy is a platinum sponsor for Hemophilia of North Carolina's annual meeting on Saturday, May 30 at the Hilton Raleigh-Durham Airport at Research Triangle Park, located at 4810 Page Creek Lane in Durham. As a platinum sponsor MedPro Rx will present information about several of its advocacy programs developed in support of the hemophilia community.

In HNC's "Who We Are: *A Look at North Carolina and Beyond*" meeting, a variety of panelists and speakers will share a history of bleeding disorders in North Carolina and discuss what is happening nationally and internationally. This full-day event will include a wide variety of programs for adults, fun activities for the children and a teen track. Attendees will have the opportunity to meet the experts, network with other families and learn about the latest products available. The meeting is presented free of charge to the HNC membership through the support of generous grants and contributions from the community.

Approximately one in every 5,000 males nationwide is born with hemophilia, affecting all racial and socioeconomic groups equally. People with hemophilia experience bleeding following an injury and may have frequent spontaneous bleeding episodes, often into the joints and muscles. More traumatic injuries may result in serious problems and potential disability. The three most common types of hemophilia are Hemophilia A or Factor VIII Deficiency, Hemophilia B or Factor IX Deficiency, and von Willebrand Disease (vWD). vWD is caused by a deficiency or defect of a clotting protein, and it affects approximately 1-2 percent of the United States population. Unlike hemophilia, vWD occurs equally among males and females and is more likely to cause nosebleeds and bleeding under the skin than into the joints.

About MedPro Rx, Inc.:

MedPro Rx, Inc. is a specialty infusion pharmacy which has been providing infused and injectable medications and services to clients with chronic illnesses since 2002. With more than 100 years of combined pharmacy, nursing and management experience, MedPro Rx is dedicated to improving the overall outcomes of the client therapy experience. MedPro Rx's goal is to set the standard for infusion care and achieve positive clinical outcomes for clients by participating in the healthcare process through integrated, community-based systems. As a specialty infusion pharmacy, MedPro Rx is an Accreditation Commission for Health Care, Inc. provider (ACHC) whose services emphasize treatments for individuals with hemophilia, vWD, autoimmune neuromuscular disorders and other complex chronic conditions. Services include client and family advocacy, complimentary pick-up of sharps containers at the client's location of choice, express shipping and personal medication delivery services, complete insurance and benefit counseling, and the assurance that MedPro Rx stocks all factor and IVIg brands, all doses from all manufacturers, all the time. MedPro Rx offers specialty intravenous therapies such as IVIg, which treats a variety of immunodeficient diagnoses, and clotting factor for a client to use in their home, at infusion clinics and in the physicians' offices. For more information or to receive a free consultation and health insurance evaluation, please call (888) 571-3100 or visit [www.medprorx.com](http://www.medprorx.com).
