**MedPro Rx, Inc. Introduces New Online Game  
To Help Children With Chronic Illness***Local Specialty Pharmacy Offers Memory Match On Kids Website*

RALEIGH, N.C. – Nancy McFarlane, president of MedPro Rx, Inc. (<http://www.medprorx.com>), a provider of specialty pharmacy services to clients with chronic illnesses who need clotting factor, IVIg and other medications, has announced the release of a new Memory Match game on the MedPro Rx Kids website (<http://www.medprokids.com>). In Memory Match, players click on a shape to reveal its hidden colors and then must match shapes that have the same colors. More shapes are added each round and players receive points for correct guesses. In addition to Jigsaw Jam, Marble Mania, Bubble Fishing and Quick Math, Memory Match is a game designed for children with blood disorders.

The MedPro Kids website was designed to promote healthy lifestyles for children with hemophilia. Children can play games, hang out with Chilly the penguin and interact with a FAQ program concerning the disease.

**QUOTES:**

“Memory Match is a fun game for children of all ages, which helps with memory skills by having participants match shapes of the same color,” said McFarlane. “MedPro Rx offers this game as a way to help children keep their minds sharp and have fun online.”
