**MedPro Rx, Inc. Introduces New Online Game
To Help Children With Chronic Illness**
Local Specialty Pharmacy Offers Pacman On Kids Website

RALEIGH, N.C. – Nancy McFarlane, president of MedPro Rx, Inc. (<http://www.medprorx.com>), a provider of specialty pharmacy services to clients with chronic illnesses who need clotting factor, IVIg and other medications, has announced the release of a new Pacman game, Ghost Man Advanced, on the MedPro Rx Kids website (<http://www.medprokids.com>). Like classic Pacman games, players must use keyboard arrows to control the Ghost Man to eat all the food in the maze. Along with a variety of other games, including Quick Math, Jigsaw Jam and Bubble Fishing, Pacman is a game designed for children with blood disorders.

The MedPro Kids website was designed to promote healthy lifestyles for children with hemophilia. Children can play games, hang out with Chilly the penguin and interact with a FAQ program concerning the disease.

QUOTES:

“Pacman is a classic game that children of all ages love to play,” said McFarlane. “MedPro Rx strives to provide fun, engaging games on our kids website and hope participants enjoy them.”
